

V S O R D

C R E A T I V E

Our web design packages are clear and easy to understand. You determine your package based on the number of informational pages and the desired functionality.

We have a package to fit every budget and top shelf aesthetics is our stock in trade at any price.

5 for \$899

Our starter package is a 5 page site for \$899. This package provides an entry level site with the ability to grow. This site is developed in content management system Wordpress allowing all pages to be edited at will by the administrator. Custom designs with top shelf aesthetics make these sites a valuable, interactive, online brochure for your business. It can also serve as a lead generating opt-in squeeze page for various promotions.

Some of our samples of this type of site are here:

6-10 Pages for \$1,199

Our second package doubles the number of informational pages allowing your site to more fully present your business and products and services provided.

This site is developed in content management system Wordpress allowing all pages to be edited at will by the administrator. We marry professional stock photography with your personal imagery to create a high end look without a high end price. Adding e-commerce, e-newsletter opt-in, calendars, social media streams, etc can take your site to a new level.

11-15 Pages for \$1,549

This package increases the number of pages again and integrates the Business Marketing Pack.

Once your website has been designed and developed, now it can be time to continue this new aesthetic throughout all your marketing material. The Business Marketing Pack includes the design and file prep (ready for printing of business cards, postcard layout, and tri-fold brochure or flyer.

This allows you to have all your collateral material continue the consistent branding that has been developed in your web presence. If you already have your print work ready, you can opt to have us customize your Facebook fan page instead.

This custom fan page development is sold for **\$250** outside this package and steps up your social media presentation with a professional and consistent branding throughout.

16-20 Pages for \$2,199

Our top package increases the number of informational pages once again and comes complete with the Business Marketing Pack & Custom Fan Page Development as well.

It also introduces the Search Engine Optimization Research & Report.

Our Google analytics certified SEO specialists will help you determine what might be the highest value keywords and search terms to target for your project.

They will help to guide you in your content creation so your site can be optimized for search including help on global Meta data, keywords, title tags and various optimization strategies.

Although SEO is an ongoing process, this SEO research will put your project on the path to search engine success.

Combining top shelf aesthetics, consistent print collateral material, social media implementation, and search engine optimization strategies, this package is perfect for anyone serious about success while keeping to a tight budget.
